National Institutes of Health

Accessing Government Funds For Your Startup

Thursday, September 19th, Noon to 1 p.m., UCSF Mission Bay

Matt McMahon PhD, Director, Small Business Education and Entrepreneurial Development, NIH Office of the Director

Need money for your startup but too early-stage to interest investors? NIH's Small Business Innovation Research (SBIR) grants and Small Business Technology Transfer (STTR) grants are a critical source of capital for early-stage companies which are creating innovative technologies to improve health. Hear from the NIH Director's Office about what you need to be attractive for this important grant opportunity. SBIR grants have provided the initial funding for many UCSF ventures. Co-sponsored by the [UCSF Catalyst Program](#).

One-on-one Sessions

1:30 to 4:30 p.m.

Matt McMahon will be available for one-on-one sessions after the talk. If you would like to get specific guidance about an SBIR/STTR, sign up for a 15-minute time slot between 1:30 and 4:30 p.m., below.

Partner Events

**Redefining Early Stage Investments (RESI) conference
Wednesday, September 11th, Boston, Copley Plaza**

RESI brings together startups with early-stage investors and strategic channel partners. The goal is to maximize the capability of these companies, from seed to series B, to find partners who are a fit for their technology and stage of development. What's unique about RESI is that the event is cross-border and cross-domain, connecting startups with 10 categories of global investors across

the silos of drugs, devices, diagnostics and digital health, the “4 Ds.” RESI caters to both the earliest stage startups; those seeking grants, seed and angel capital; and the early-stage firms who seek series A and B funding. Attendees include investors, strategic partners, entrepreneurs and service providers. UCSF discount code: **UCSF100**. [Register here](#).

BioPharm America 2019, Wednesday-Thursday, September 11th-12th, Boston Convention and Exhibition Center

BioPharm America is a unique partnering event that includes startup companies, established biotechs and entrepreneurs from academia who attend in search of finance, Pharma and development partners. The event brings dealmakers from the life science ecosystem together to engage and de-risk the enormous task of drug development. Life science executives from around the world gather to identify, meet and to enter into strategic relationships. Meet more key decision makers in 2 days than you could all year. Qualified startups can attend for the discounted rate of \$695. UCSF Discount Code: **UCSF**. [Register here](#).

The Entrepreneurship Center at UCSF provides the knowledge, support and connections needed by scientists and clinicians to become entrepreneurs. The Center seeks to create an innovation community and commercialize UCSF inventions through startup ventures. Our entrepreneurial ecosystem includes the Silicon Valley business community, Berkeley and Stanford.
